

Freestanding Infrared Touch Screen  
with Dual OS Range

## Dual OS

Experience the most versatile commercial touch screen on the market. With both Android and Windows operating systems installed on the integrated PC it cannot be beaten on flexibility. Seamlessly switch from your Windows desktop to the Android apps; this screen has it all in one convenient package. A Windows license will need to be purchased separately.

## Infrared Touch

Infrared Touch Screens use the most robust and durable touch technology available. Designed for commercial use, infrared touch technology works by embedding LED lights and sensors into the bezel of a monitor above the glass. These LED's beam a signal across to the corresponding sensor on the other side forming an invisible grid. When the grid is broken by a finger, or other solid object, the sensors can detect the touch point. Infrared touch screens are by far the most cost effective solution on the market.

## Features

### 10 Point Touch

Having up to 10 touch points allows for a wider variety of applications than ever before. This kind of functionality allows you to manipulate images, zoom in and out as well as perform many other touch gestures; much like you would with a domestic tablet. It also allows for multiple users interacting with the screen at one time.

### 24/7 Usage

Built with commercial grade panel and components these displays are designed to run 24/7 in constant use; unlike domestic tablets. The panel also has a lifespan of over 50,000 hours of continuous use.

### LED Backlight

The LED backlight used is not only eco-friendly but also ensures the display has enhanced brightness and contrast. This technology increases the lifespan and reduces the power consumption by around 30%. This form of light technology is mercury free; safeguarding this screen's eco friendliness.

### Attach External Devices

Although the screens have an integrated PC with two operating systems, there is also a possibility to attach external devices if required. Simply connect your device to the screen, via VGA or HDMI (for the video signal) and USB (for the touch functionality). The screen will then serve as your computer monitor and the touch functionality controls the cursor, essentially acting as your mouse.

	Display Size	50 inch	55 inch
<b>Panel</b>	Resolution	1080x1920	
	Display Area (mm)	625.4x1106.4	686.4x1215.8
	Aspect Ratio	16:9	
	Pixel Pitch (mm)	0.565x 0.565	0.6342x 0.6342
	Brightness (cd/m2)	500	
	Colour	16.7M	
	Viewing Angle	178°	
	Contrast Ratio	5000:1	
	<b>Touch</b>	Touch Technology	Infrared
Touch Points		10	
Glass Hardness		7H minimum	
<b>Audio</b>	Speaker Type	2W, 5Ω (x2)	
<b>AV Inputs</b>	Video	HDMI, VGA	
	Audio	Audio Socket (3.5mm)	
	Input Voltage	AC110~240V (50Hz~60Hz)	
<b>Mechanical</b>	Unit Size (WxHxD mm)	766x1850x79.5	827x1947x79.5
	Footprint (WxD mm)	779x400	840x400
<b>Environmental</b>	Operating Temperature	0°C to 50°C	
	Storage Temperature	-30°C to 60°C	
	Operating Humidity	10% to 80%	
	Storage Humidity	5% to 95%	
<b>Computer</b>	CPU	Intel® Atom (Quad-core) Z3735F (2M Cache, up to 1.83 GHz)	
	RAM	2GB (DDR3L-RS 1333)	
	Instruction Set	64-bit	
	Graphic Engine	Intel® HD Graphics (7th Gen, supports DirectX 11 and up to 646 MHz )	
	Internal Memory	64GB	
	USB	2 x USB 2.0	
	LAN	10/100M Ethernet	
	Wi-Fi	802.11b/g/n	
	OS	Android 4.4.4 KitKat Windows 10 IoT Enterprise (licence purchased separately)	
	Other	No accessible buttons or controls	
<b>Accessories</b>	Included	Remote Control, User Manual, Power Cable, USB to USB Cable, Wi-Fi Aerial
